

TANNOY DEFINITION DC8 TI

FEATURES

- 2½ way floorstanding loudspeaker for medium to large sized rooms
- Dual Concentric driver technology provides class-leading coherence and point-source imaging
- Dual Concentric 8" point source driver and 8" bass driver deliver unrivalled musical articulation and outstanding dynamics
- Wide band 1" titanium tweeter with tulip waveguide creates perfectly spherical wavefront to further enhance stereo imaging
- Substantial but elegant high gloss black finish complements any listening environment
- Magnetic grille mounts provide a smooth and uncluttered front baffle appearance
- Cryogenically treated crossovers on low-resonant boards with DMT (Differential Materials Technology)
- bi-wireable binding posts to improve signal transmission and integrity

- Fifth binding post provides grounding to reduce radio frequency interference and improve midrange clarity
- Curved side panels disperse internal standing waves and reflections for low colouration
- Finest grade plywood specifically chosen for its natural acoustic properties.
- Extensive bracing incorporating DMT to couple drivers to cabinets
- Rear ported cabinet for extended low frequency response
- Top-adjustable floor spikes allow precise levelling of speaker cabinet
- Mass-loaded plinth provides exceptional stability
- 5-Year Warranty Program*
- Designed and engineered in the U.K
